Deldi - I am sure we can take a look at the sampling plan. Send it over.

Hi Deldi

The folks who have expertise on lead cleanups in SFD are a number of folks in Dan Meer's branch - several on scene coordinators, Harry Allen, Dan Meer and probably Pete Guria. I am copying Dan and Enrique on this reply.

John, I'm at tonight's Exide meeting where I had a chance to discuss Su Patel's request (email below). Su told me she'd checked in verbally with Steve Kemm (Region 7) and gave him a rundown of their plan. Per Su, Steve told her it was a good plan and more conservative than what region 7 would do.

Su would like to be able to share this with the advisory group. My advice to her is to anticipate that the AG may likely ask to see a record of EPA's review, or at a minimum something a little more formal than a report of a phone conversation. Su said the plan itself would be no more than 5 to 7 pages. Ideally they'd like to report that we've reviewed it and our take on it by the next meeting, tentatively set for Nov 19th.

Is this review something that someone in your shop can do and if so is the timeline workable?

Subject: Sampling for Lead in Residential soil, Exide

Hi Sophia and Deldi,

I am looking for either one of you to help me get someone to talk to about our sampling plan for lead contamination in residential yards in Exide's neighborhood in Vernon CA. We are presenting our proposed plan to the community tomorrow and wanted some outside feedback.

Please let me know if you can identify that person for me. Tomorrow I will be travelling to LA but can be reached at 916-792-9400 [my cell phone].

Thank you

Su
